

## **Short Sight**

Your eyes stare at these stars  
No lines can draw who you are  
Abstracted, so afraid to fail

My friend pulls up on the boulevard  
This has almost gone too far  
Distracted, chasing your own tail

Stand with me tonight  
I've seen it all with these eyes  
Can we feed on short sight  
Believing we're strapped in tight

Mixed up in this sick farce  
Blocked again by one too many scars  
I acted, made my own trail

Step into your fast, fancy car  
It's pristine, where can I even start  
Distracted, chasing your own tail

Stand with me tonight  
I've seen it all with these eyes  
Can we feed on short sight  
Believing we're strapped in tight

My eyes stare at these stars  
Suddenly this all falls apart  
I acted, made my own trail

Hand me some daylight  
I bleed from these eyes  
Stand with me, it's alright  
Under these neon lights
