

Freeze

Sleepy head, I'm half dead
Still in bed, dreams budget
Running through mazes
Dangling different faces

Clear and clean these
I'm starting to freeze
Too much ice cream
I'm starting to freeze

Completed this treatment
Stay seated, still depleted
Running through mazes
Glass bottom basis

Clear and clean these
I'm starting to freeze
Too much ice cream
I'm starting to freeze

You stated I invaded
This statement, eliminate this
Just going through phases
Crawling through your mazes

Clear and clean me
I'm starting to freeze
Too much ice cream
I'm starting to freeze

Set This Down

Set this down

Set this down

She said there ain't nothin' like this sea breeze

Clarity

It speaks to her and its direction is always apparent

One by one demons exit

She visits me after the sea

And I can breathe again

Set this down

Set this down

I thought that they would never leave

Sitting for hours filling up air space

Lay her down to sleep

Kiss on the cheek

She visits me after the sea

And I can breathe again

If only I could break out of this imprisonment

I would head straight to those cliffs

That sea breeze

She visits me after the sea

And I can breathe again

Set this down

Set this down
